

Type 0331 can be combined with...

 Direct-acting with separating diaphragm Fast-acting

and manual override

• For liquid, gaseous and aggressive Medium

3-way solenoid valve with pivoted armature

Long service life, even in non-lube conditions

Cable plug

Type 2508

Timer unit

ASI cable plug

The Type 0331 is a direct-acting 3/2-way pivoted armature solenoid valve for sub-base mounting. The magnetic system and the Medium chamber are separated from one another by a separating diaphragm system. The valve is fast acting and has a long service life, even when run dry.

| Technical data | | | | |
|--|---|--|--|--|
| Orifice | DN 2.0-3.0 mm | | | |
| Body and seat materials | Brass and stainless steel 1.4401 | | | |
| Coil material | Ероху | | | |
| Coil insulation class | Н | | | |
| Seal material | NBR, FKM (EPDM on request) | | | |
| Medium NBR FKM EPDM (on request) | Neutral Medium such as compressed air, water, hydraulic oil Hot air Oil and fat-free Medium | | | |
| Medium temperature NBR FKM EPDM (on request) Ambient temperature | 0 to +80 °C 0 to +90 °C - 30 to +90 °C Max. +55 °C (min. temperature see Medium tem- | | | |
| | perature) | | | |
| Viscosity | max. 37 mm²/s | | | |
| Voltage tolerance | ±10% | | | |
| Duty cycle | 100% continuous rating | | | |
| Manifold mounting | Use reduced duty cycle or 5W coil | | | |
| Electrical connection | Tag connector acc. to DIN EN 175301-803 Form A (previously DIN 43650) for cable plug Type 2508 (supplied as standard) | | | |
| Protection class | IP 65 with cable plug | | | |
| Installation | as required, preferably with actuator upright | | | |

| Ì | Power consumption | | | | |
|---|-------------------|---|-----------------|--------|--|
| ı | Inrush | | Hold (hot coil) | | |
| | AC [VA] DC [W] | | AC [VA/W] | DC [W] | |
| | 30 | 8 | 15/8 | 8 | |

| Response times | |
|-------------------------|-------|
| AC opening/closing [ms] | 8-15 |
| DC opening/closing [ms] | 10-20 |

Measured at valve outlet at 6 bar and +20 °C

Opening: pressure build-up 0 to 90%, closing: pressure relief 100 to 10%

⁴⁾ In DC-versions with orifice 3.0 and 4.0 the orifice diameter is reduced by about 0.5mm.

The valves are manufactured with different springs. The valves can be applied also in other circuit functions with respect to different pressure rates. For further information please see separate datasheet.

Further versions on request

Materials

Stainless steel body

Approvals UL, UR, GL, CGA/AGA, UL Hazardous Locations

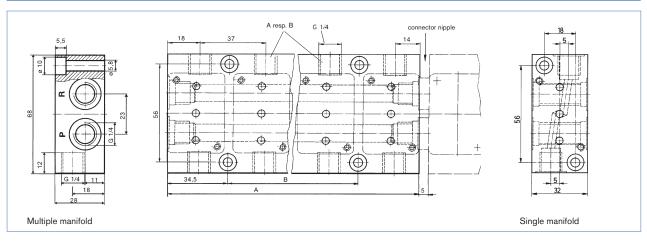

Additional Electrical feedback, version without manual override

Voltage 110/50, coil with 5W power consumption, non-standard voltages
