bürkert
FLUID CONTROL SYSTEMS

Control Head for the integrated mounting on process valves

- ▪ Compact stainless steel design
- ▪ Integrated analogue valve position registration (Teach function)
- ▪ Coloured illuminated status display
- ▪ Internal control air channel
- ▪ Fieldbus interface AS-Interface/DeviceNet (option)
- ▪ With ATEX II cat. 3G/D approval

Type 8691 can be combined with…

Type 2100
Angle-seat valve

Type 2101
Globe valve

Type 2103
Diaphragm valve

Type 2000
Angle-seat valve

Hygienic process valves

The 8691 control head is optimised for integrated mounting on the 21XX process valve series. The registration of the valve end position is done through a contact-free analog position sensor, which automatically recognises and saves the valve end position through the Teach function when starting up. The integrated pilot valve controls single or double-acting actuators. As an option a fieldbus interface, AS-Interface or DeviceNet, can be chosen.

The design of the control unit and the actuator enables an internal control air channel without external tubings. Besides the electrical position feedback signal the status of the device is shown directly on the control head itself through coloured powerful LEDs showing a clear visible valve position status, even under dirty or dark environments.

The housing is easy to clean and features proven electrical IP protection and chemically resistant materials for use in hygienic processing in food, beverage and pharmaceutical industries. Focused on wash down applications the IP rating is supported by a positive pressure inside the control head. Combined with Bürkert ELEMENT actuators the unique pilot valve system enables a compressed air recycling that avoids actuator chambers contamination from the environment.

Technical data		
Material	Body	PPS, stainless steel
	Cover	PC
	Sealing	EPDM
Control medium		neutral gases, air DIN ISO 8573-1
	Dust concentration	Class 5 ($<40\mu m$ particle size)
	Particle density	Class 5 ($<10mg/m^3$)
	Pressure condensation point	Class 3 ($<-20°C$)
	Oil concentration	Class 5 ($<25mg/m^3$)
Supply pressure		3 to 7 bar [1]
Air input filter		exchangeable
	Mesh aperture	~0.1mm
Pilot air ports		Threaded ports G1/8, stainless steel or push-in connector (tube Ø 6mm or 1/4")
Position feedback		Analogue position sensor (contact-free) with teach function; switchpoint (PNP) (NPN on request)
Stroke range valve spindle		2,5 to 45 mm
Ambient temperature		
	with pilot valve	-10 to +55 °C
	Without pilot valve	-20 to +60 °C
Installation		As required, preferably with actuator upright
Protection type		IP65 and IP67 according to EN 60529
Protection class		3 according to VDE 0580
Fieldbus communication		AS-Interface, DeviceNet
Conformity		according to CE in compliance with EMV2004/108/EG
Approvals		ATEX II cat. 3G/D
Ignition protection		II 3D Ex tc IIIC T135 °C Dc II 3G Ex nA IIC T4 Gc
Electrical connection		
	Multipole	M12, 8-pins, M12 4-pins (AS-Interface), M12 5-pins (DeviceNet)
	Cable gland	M16x1,5

1) The supply pressure has to be 0,5 - 1 bar above the minimum required pilot pressure for the valve actuator.

Technical data, continued

Without fieldbus communication

Technical data	
Power supply	24 VDC ±10%
Residual ripple with DC	10%
Power consumption	< 2 W

Electrical connection
  Multipole
  Cable gland
	
	M12, 8-pole
	M16x1.5 (cable-Ø10mm), terminal screws (1.5mm^2)

With fieldbus communication; AS-Interface

Technical data	
Profile	S-B.A.E. (A/B slave, max. 62 slaves/master) Certificate No. 77601 acc. to version 3.0

Power supply
  through bus line
  separated from bus signal
	29.5 to 31.6 VDC

Ordering information for process valve system with integrated control head

A complete process valve system consists of a Control Head Type 8691 and a process valve Type 21xx or 20xx.
The following information is necessary for the selection of a complete system:

▪**Item no.** of the desired Control Head **Type 8691** (see ordering chart on p. 4)
▪**Item no.** of the desired process valve **Type 21xx or Type 20xx**
(see separate datasheet for e.g. Types 2100, 2101, 2103 and 2000, 2012, 2031)

You order two components and receive a complete assembled and certified valve.

When you click on the orange box "More info." below, you will come to our website for the resp. product where you can download the datasheet.
